

Dear Friends,

In 1979 when I started Connecticut Clean Room Corporation, I had the idea of making a better step-off pad for the cleanroom industry. Not only did I want to make a better product, but to make it affordable and offer a variety of sizes that were not available in the industry. This simple concept has taken us to where we are today. What started out as one product has now grown into a company that distributes, converts and manufactures nearly 3,500 items.

Oh, how times have changed, with fierce competition coming from all sides of the globe. The one thing that remains constant is we at CCRC are here to offer top service to our customers. Whether it's converting, die-cutting or just trying to find another type of shoe cover, we will help you find a solution to fit your needs.

We are proud to say that our company has grown from 5,000 sq. ft. to over 35,000 sq. ft. of manufacturing, converting, and distribution space still in the same location. Our employee base is now at 25 associates with a knowledgeable sales staff averaging over 12 years of industry experience. While much has changed over the years, one thing remains a constant, our dedication to you, our customer. Customer service means getting a real person, not a machine when you call our office. It means listening to your needs and finding a solution in a timely manner.

Please accept my sincere thanks for your support over the years as we enter into our third decade of doing business. Remember that our mission is to provide you, our customer, with the best product at the best possible price and support it with unmatched customer service.

Sincerely,

A handwritten signature in cursive script that reads "Claude Lussier".
