

# Quiltec® I Wipe

Two-ply quilted polyester wipe, sealed edge

## Description

The Quiltec I Wipe offers the highest sorptive capacity of any sealed edge wipe available. It is manufactured using two layers of knitted polyester fabric that are laminated together to form a stronger, more adsorbent wipe. Because additional fluid is captured within the quilted pockets between the fabric layers, the Quiltec I Wipe has more than twice the adsorbent capacity of a single layer wipe. Quiltec I has laser-cut, heat-sealed edges and is laundered and packaged within a cleanroom laundry for superior cleanliness characteristics. As a knitted polyester product, it is abrasion and chemical resistant and inherently low in releasable particles and fibers.
